

# YASHASH S S

## ARTIFICIAL INTELLIGENCE AND DATA SCIENCE STUDENT

#4 Nimbekaipura, Bengaluru | yashashsheshagiri@gmail.com | +91 6360969659

### SUMMARY

Tech enthusiast with a keen interest in AI, embedded systems, and real-time computing. Passionate about developing AI-driven solutions, optimizing intelligent systems, and integrating machine learning for automation. Interested in autonomous drones, real-time data processing, and vision-based applications. Continuously learning and exploring software development, hardware-software interaction, and innovative problem-solving techniques.

### TECHNICAL SKILLS

C++	Data Structures
Java	MySQL
Python	Web Development

### EDUCATION (CURRENT)

#### Bachelor of Computer Science and Artificial Intelligence

PW Institute of Innovation

- Skilled Based Learning for Industry Ready

#### B.S.c (Honours) in Data Science & Artificial Intelligence

liT Guwahati

- Degree Program

### PROJECTS

#### E-commerce Platform Development

- A 24-hour hackathon conducted by our college, where we built a website to address a problem in the D2C space. We identified an issue related to demi-fine jewelry, analyzed the business, and developed a complete website as a solution.

#### Weather Forecast Website

- By entering the name of a city, the website will display the current weather, hourly forecast, and daily weather forecast using the OpenWeather API.

#### Building FPV Drones

- The First Person View drone with autonomous functionality

### ADDITIONAL INFORMATION

- **Languages:** English, Kannada, Hindi, Telugu.
- **Awards/Activities:** Participated in Rajasthan Police Hackathon 1.0 and secured 2nd runner-up position for developing a solution to the anti-drone hostile problem statement.
